Please note that Syngenta places a very high priority on completion of Mr. Conn's FOIA request by the Agency as neither Syngenta nor the prior registrant, Pasteuria Bioscience, Inc., has been able to locate 100 percent of the contents of the records listed above. There is no need for EPA to perform its traditional confidential business information review (other than for 3rd party information) prior to release of the requested documents, since in this situation Syngenta is simply requesting copies of documents to which it has rightful access.

Please contact me at (336) 632-7317 if you have any questions.

Sincerely,
